

FINANCIAL PLAN & ENGAGEMENT FRAMEWORK

MILESTONE	TIMELINE	FIXED COST	STRATEGIC ENGAGEMENT CONTEXT
1. Cloud Baseline / Security Audit / Gap Analysis	1 week	₹60,000 FREE	Trial period evaluation for long term engagement
2. Alembic ORM / Schema Inspection / Integrity Sync	1 week	₹60,000 ₹30,000	Reduced due to low-medium application complexity
3. CI/CD Automation / Terraform [uat and prod env automation]	3 weeks	₹2,40,000 ₹1,50,000	Reflecting optimized development requirements
4. Code Implementation / IAC Artifact / Handover	2 weeks	₹40,000 ₹20,000	Complete knowledge transfer and handover
TOTAL FIXED COST		₹2,00,000	Partner Vision Discount Applied

Developer (2.5 Yrs): ₹1,000 / hr

Architect (15 Yrs): ₹2,500 / hr

NOTE: For enterprise-level applications, our standard fee is ₹4 Lakh. However, since this is a low-complexity project, both the timeline and fee have been significantly reduced by 50% to reflect optimized delivery requirements.

TECHNICAL EXECUTION MILESTONES

1 DISCOVERY & AUDIT (1 WEEK)

- "As-is" Cloud Baseline deployment to validate PaaS stability.
- Full Code Security Audit (SAST/DAST) & Architecture Audit.
- Architecture Gap Analysis identifying cloud-native state requirements.
- Mapping API decoupling points for micro-modular scalability.

2 PERSISTENCE & ORM BUILD (1 WEEK)

- Alembic ORM implementation for versioned schema management.
- Automated SQL-to-PostgreSQL transformation & schema inspection.
- Partial development initiation & refactoring of core logic.
- Managed server deployment with recursive integrity synchronization.

3 DEVSECOPS ORCHESTRATION (3 WEEKS)

- Full CI/CD Pipeline automation for fast-track code-to-prod lifecycle.
- Terraform HCL modules for **UAT and Production env automation**.
- Standardized IaC deployment reducing manual provisioning errors.
- Integration of automated security scanning & vulnerability hooks.

4 CLOSURE & HANDOVER (2 WEEKS)

- Final code implementation & full integration of audit results.
- Handover of IAC artifacts, Terraform scripts, and creation logic.
- Transfer of CI/CD process documentation & operational runbooks.
- Zero-downtime modular cutover & comprehensive internal training.
